=====FIRE SAIL=====

CLOVES & COLDIES: Darwin /Ambon shrines
an installation by SUZANNE SPUNNER

to Ambon they go....the sailors who dream of sailing the wine dark seas to the spice islands as the spice traders went to Amboina in the Moluccas in search of an aromatic antidote to putrifaction ...the cloves they found are the dried flower buds from an evergreen tree ...from Latin, clavus meaning nail ...the sailors sail by the stars and are rocked on the wine dark sea all the way to Ambon...

from Darwin they comethe yachties in thongs and stubbies, eskies bulging, sinking their tinnies, becalmed , gettting edgy and shitty, waiting for the wind to pick up, drowning their dreams in coldies , getting through the duty free at the rate of knots and not moving... its a sailing race... turn the engine on....no way , we're sailing to Ambon. No worries
